**Merchant URL:** the default path to the payment <https://payeer.com/merchant/>

**Merchant ID:** id of your store in the system Payeer.com (can be found in the personal cabinet).

**Secret key:** the secret key of your store, also issued to you when registering in the system.

**The path to the log file:** if you specify the path to the file logging, you will be recording information about payments via Payeer.

**IP filter:** You can specify the list of all trusted ip addresses of servers, separated by commas. You can also specify a mask instead of the ip address. If the field is empty, checking for trusted ip addresses is not performed.

For example:

192.168.71.87, 192.165.83.17, 192.178.34.15

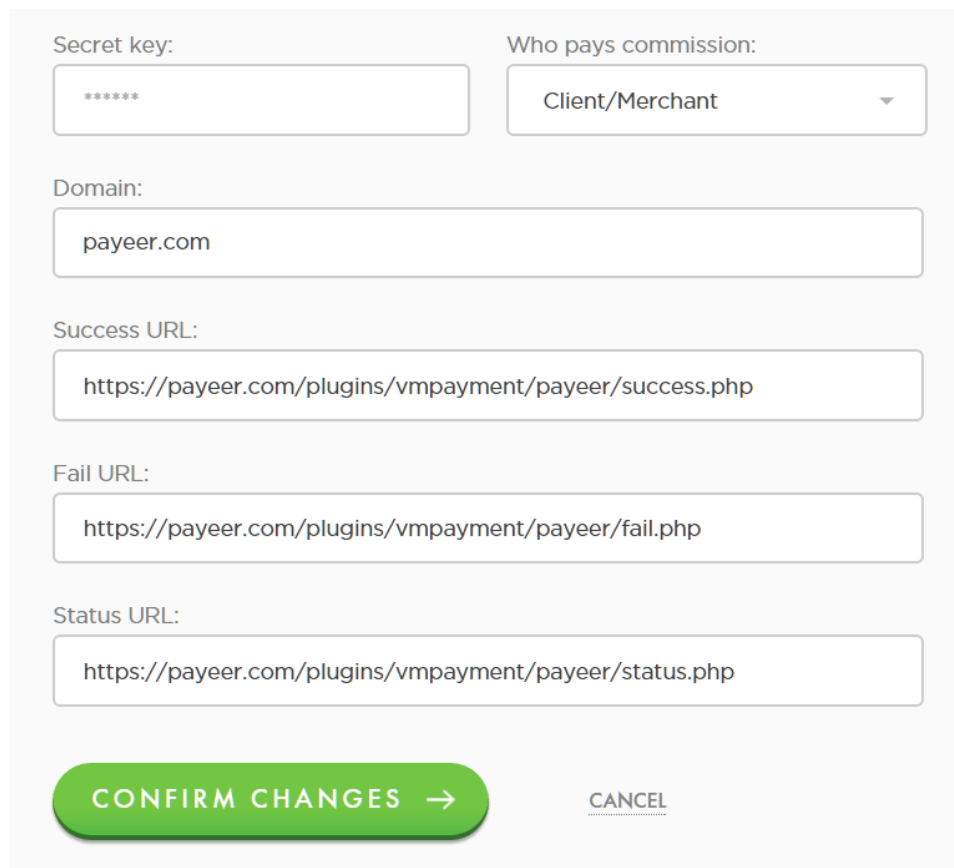

Or 192.\*.71.87, 192.165.83.\*, 192.\*.34.15

Or \*.\*.\*.\* - all available ip addresses

**Email for warning send:** enter your email address to receive notices in the event of an error of payment. The letter will state the reason and basic information about the payment.

Click "Save".

Then on the website [payeer.com](http://payeer.com) in the dashboard, enter the URL address in the store settings.

The screenshot shows a configuration form for the Payeer payment gateway. It includes fields for a secret key, domain, success and fail URLs, and a status URL. A dropdown menu for 'Who pays commission' is set to 'Client/Merchant'. At the bottom, there are two buttons: a green 'CONFIRM CHANGES' button with a right arrow and a grey 'CANCEL' button.
